

### Faster, Better

In the age of digital the speed and quality of the internet connection offered to your client is key. So, whether you are a Gulf based internet service or content provider, a carrier in the business of selling global VPNs or a regional cloud solutions provider then GBI can add value to your business through best of breed IP connectivity.

#### Robust

A full routing table, with connections to the largest IP Exchanges within Europe, in addition to regional Internet Exchanges in the GCC region.

#### Reliable

With multiple sub-sea cable and terrestrial routes and Tier 1 connections, GBI ensures traffic continuity, backed by our 99.99% SLA.

#### Fast

GBI's low average hop count demonstrates we are as fast or faster than any other Tier1 provider.

#### Flexible

Bandwidth flexibility from 100Mbps to multiple 10Gbps. Connectivity via multiple European and Gulf POPs including long haul options.

Class	Route
Premium	Advertising full global routing table inc. GCC
Standard	European routes to all major Tier 1s
Content	All AS200612 interconnected public and private peers

### About GBI

GBI owns and operates a multilayer carrier neutral network bridging the world to the Middle East.

Feature	Benefit
<b>Coverage</b> <ul style="list-style-type: none"> <li>- Entire GCC covered with our IP transit service</li> <li>- 4 IP POPs in the Gulf, 3 IP POPs in Europe providing GBI presence in the major IX regional/international hubs</li> </ul>	<ul style="list-style-type: none"> <li>- Local strength backed by a global network</li> <li>- Choice of connectivity options bringing you closer to your customers</li> <li>- Offer your customers premium international connectivity without the need to invest in your own global infrastructure</li> </ul>
<b>Resilience</b> <ul style="list-style-type: none"> <li>- Protected terrestrial routes via North Africa</li> <li>- Unique protected North route via Iraq into Eastern Europe</li> </ul>	<ul style="list-style-type: none"> <li>- Our resilient, scalable network allows you to rapidly respond to the market need for high quality internet.</li> <li>- Inherent diversity of the network minimises your operational and capital outlay.</li> </ul>
<b>Service</b> <ul style="list-style-type: none"> <li>- 24/7 IP NOC</li> </ul>	<ul style="list-style-type: none"> <li>- Receive relevant, timely information and access to round the clock control and flexibility you need to manage your service.</li> </ul>
<b>Speed</b> <ul style="list-style-type: none"> <li>- Equal or lower average hop count than other Tier 1s</li> <li>- Optimised routing across GBI owned and operated international network infrastructure</li> </ul>	<ul style="list-style-type: none"> <li>- Receive lower latency for your time sensitive applications</li> <li>- Higher quality of service and reduced customer complaints</li> </ul>
<b>Flexible Pricing</b> <ul style="list-style-type: none"> <li>- Flat rate per Mbps per month</li> <li>- 95<sup>th</sup> percentile (data bursting)</li> </ul>	<ul style="list-style-type: none"> <li>- Depending on your traffic profile you can optimise your pricing to reduce cost</li> </ul>

### Why GBI IP Transit?

GBI is the IP transit provider of choice with strategic aggregation of content from East and West. Locally our premium IP transit service leverages extensive regional peering relationships thus eliminating round-the-world routing from traditionally hard to reach countries in the region.

## Classes of Service

GBI Provides	Premium	Standard	Content
Guaranteed lower latency to Middle East and Far East locations.	Yes		
A multi-homed European service consisting of major Tier 1 carriers	Yes	Yes	
Extensive network of peers and content providers	Yes	Yes	Yes

## Technical Specifications and Latency

Access Speeds	100Mbps to 100Gbps
Interfaces	GE and TenGig
Availability	99.99%

Destination	RTD (ms)*
Europe	140
India (Mumbai)	40
Asia	90
US East	200
Gulf	20

\* Round trip delay for GBI's global AS 200612 as measured POP to POP

## Pricing options

A range of pricing options are available that help tailor our solution to your particular need. You have a choice of a flat rate per Mbps per month where you'll pay a fixed amount for a pre-agreed amount of bandwidth. 95th percentile billing gives you flexibility in bandwidth where you receive a base bandwidth and an agreed burst level. Your contract with GBI shall detail these charges and any others including an installation fee.

## Contact GBI
